

**Patricia Triki**

**Try to explain the characteristics of philomena+ and your collaboration**

Philomena + is a project with a human dimension. It's a place with great expertise in the world of art, its practices and there you feel good as a family.

The quality and diversity of these artistic proposals are reflected around encounters, collaboration and exchange. Everything is done to help artists and encourage them to create in the best conditions.

For my part, I offered to exhibit the works of young Tunisian photographers and I was pleasantly surprised by the unconditional support and care offered to us by philomena+ at all levels (transport, accommodation, production, exhibition, per diem etc.). Philomena+ is truly an exceptional space for exchange and conviviality in Vienna. Artists can create in the greatest freedom.

**What did you take home from Vienna?**

I brought back a lot of energy and the desire to continue to create and share.

**What advice would you give to future collaboration candidates?**

Trust Christine Bruckbauer, she will do everything to help you and try to make your project the best.
